PROFESSIONAL SUMMARY

IT Support Specialist with enterprise-scale experience at DHL Supply Chain, where I delivered L1/L2 support for 400–500+ users across 24/7 warehouse and office operations. I have managed production Active Directory environments, enforced MFA policy, and kept critical infrastructure stable under real operational pressure — not just in lab settings. My background in customer service and business operations means I communicate technical issues clearly to non-technical stakeholders and think in terms of business impact, not just ticket counts. I am fully remote-work ready, available full-time across PH, US, UK, and AU timezones.

CORE COMPETENCIES

Active Directory (User Management, GPO, Permissions) • ServiceNow ITSM • Windows Server 2022 • VMware • Network Monitoring & Access Point Management • IT Asset & Inventory Management • Endpoint Security & MFA Enforcement • Hardware & Software Troubleshooting • Warehouse Management Systems • Remote Desktop Support • Microsoft 365 / Google Workspace • SharePoint / Power Apps • HTML / CSS / Java / JavaScript / MySQL • Process Improvement • Vendor Coordination • Chat GPT • Claude AI • Gemini

EXPERIENCE

IT Specialist (DHL Supply Chain Philippines) Aug 2025 - Feb 2026

- Delivered L1/L2 IT support for 400–500+ users across warehouse and office environments, consistently resolving 80+ tickets daily while maintaining near-zero unplanned downtime.
- Administered Active Directory for the full user lifecycle — onboarding, permission assignments, Group Policy enforcement, and offboarding — ensuring zero unauthorized access incidents.
- Monitored network infrastructure and access points across the warehouse floor, proactively identifying and resolving connectivity issues before they impacted logistics operations.
- Managed IT asset inventory across the full hardware lifecycle — from procurement and deployment to decommissioning — keeping records 100% accurate for audit readiness.
- Led enforcement of MFA compliance and phishing awareness campaigns, reducing security policy violations and strengthening the site's security posture.
- Coordinated with external vendors and contractors for equipment procurement and infrastructure installations, cutting resolution time on complex hardware issues.
- Supported warehouse management systems (WMS) critical to daily logistics throughput, escalating and resolving system issues to protect operational continuity.
- Identified and documented recurring incident patterns, proposing process improvements that reduced repeat tickets for common hardware and access issues.

Customer Service Representative (Carelton Global Solutions) March 2024 - Nov 2024

- Handled high-volume inbound support for a US-based healthcare insurance account, resolving member inquiries with documented accuracy and compliance to HIPAA-sensitive protocols.
- Utilized CRM systems to log, track, and close cases efficiently, maintaining case documentation standards that supported quality audits.
- Developed strong stakeholder communication and de-escalation skills — directly applicable to translating complex IT issues for non-technical end users.

Operations Assistant (Grilling and General Merchandise Family Business) Oct 2022 - Dec 2023

- Managed day-to-day store operations including inventory control, sales tracking, and supplier coordination, maintaining consistent stock availability and reducing shortfall incidents.
- Handled customer transactions and inquiries, consistently achieving high satisfaction through attentive service and accurate order fulfillment.

Web Developer Intern(Go Crayons) Feb 2022 - May 2022

- Completed 500+ hours of structured web development training and contributed to live website builds using HTML, CSS, JavaScript, and WordPress.
- Collaborated on both front-end and back-end tasks, building foundational skills in full-stack web development under production conditions.

EDUCATION

Bachelor of Science in Information Technology
Lyceum of the Philippines University-Cavite campus

June 2022

REMOTE WORK READINESS

Internet: Primary: Fiberblaze Fiber 1Gbps | Backup: Smart 5G mobile hotspot

Power Backup: Minimal power outage in my area | planning to buy a Portable Power Station

Equipment: Desktop PC/ Processor: AMD Ryzen 5 5600G | 16GB of RAM | 500 GB NVME SSD, 1TB HDD | 24-inch monitor | Noise-cancelling headset | Webcam

Workspace: Dedicated home desk setup in a quiet, distraction-free environment

Availability: Full-time | PH (PHT), UK (GMT), AU (AEST) timezones
